

Fire Stick & Mic Array Case Study

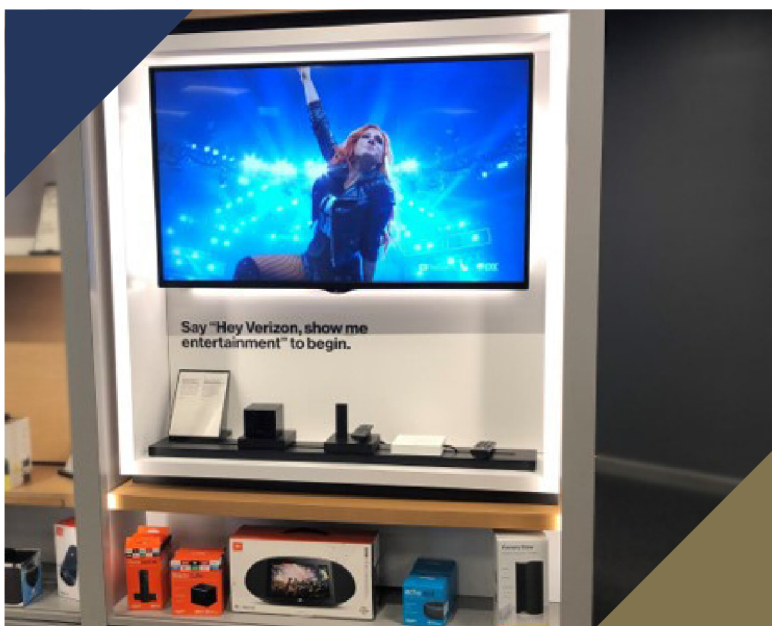

“We needed to launch quickly, so Infinity’s streamlined development, manufacturing process, and simplified installation helped us meet the demands of a tight timeline.”

THE CHALLENGE:

Design and manufacture housing for interactive displays in a condensed timeline.

Say “Hey Verizon, show me entertainment” to begin.

MATERIALS USED:

- Acoustical Fabric Digital Print
- Powder Coat
- Acrylic
- Wire Mesh
- MDF
- Wet Finish
- Interactive Electronics

MANUFACTURING & LOGISTICS

3,600 total fixtures.

Integrated lift sensors and voice activated interface to trigger customized customer content

TESTIMONIALS

“Infinity has done a fantastic job making the fixtures install-friendly and more efficient to set-up”
